## Cancun ranks #1 in vacation destinations

By Justin Kiely and Kathy Bogart  
USA TODAY

**CANCUN-** If you're looking to go on a vacation Cancun might be the place for you. A recent worldwide poll judged vacation hotspots on several categories including cost, resort quality, weather, safety, food, entertainment, and overall traveler satisfaction. Cancun took first place in an impressive 21 of 24 categories.

Fiji and Bora Bora were the only destinations that gave Cancun any competition except the average cost for both were close to 600% more than Cancun.

Cancun and the Riviera Maya (coastline south of Cancun Mexico) have some of the nicest Caribbean Beaches in the area, extremely friendly accommodating people, and world class resort accommodations. Whether it is the hustle and bustle of the night life of Cancun, world class shopping, motorized and non-motorized water sports, exploring ancient Mayan ruins, scuba diving, relaxing with your favorite book and working on your sun tan, or the peaceful, serene solitude of the Riviera Maya, its no wonder that Cancun, Mexico is the Peoples choice for the #1 vacation Destination in the world.

Although we can't endorse any travel companies our editors found prices in the \$300's for all inclusive packages from a reputable company. Their toll free number is **800-417-3710**.
