

## Concorde America Revises Press Release

BOCA RATON, Fla., Aug. 9 /PRNewswire-FirstCall/ -- The following is a revision of a July 28 release:

Nations of the European Union are currently faced with a crisis of global proportions that can be summed up in three words: zero population growth. One of the most critical and immediate side effects of this is the strain it puts on the individual and collective economies of each nation as a result of the lack of workers available to perform duties in agriculture, hospitality, sanitation, security and other jobs.

Enter Concorde America (OTC Pink Sheets: CNDD), a Boca Raton, Florida-based corporation that has developed a unique solution to this problem by offering to recruit, screen, secure the services of and transport qualified workers from Latin American nations to fill the needs of European countries and companies. Concorde America has entered into an agreement with one of Spain's largest agricultural firms. The need for qualified labor is rampant throughout almost all the European nations.

The Concorde America solution demonstrates how the problems of one area of the world can become the solution to another. Workers in many Latin American countries can expect to earn about the equivalent of \$60 a month working the fields or as domestics or security guards. For doing the same work in Spain or Italy or Germany, they can earn over \$1,000 a month. In addition, they can provide their families back home with health and dental insurance and even be a part of a pension plan.

Tom Heysek, noted financial advisor, has conducted extensive research on the management team, financial reports and the opportunity. "Concorde America has no real direct competitors in the category of labor that they focus on providing, yet the need for this labor is by far greater than for that of more skilled professional help. It's a classic case of supply and demand. Concorde has access to the supply via their arrangements and agreements with Latin American countries and labor pools. Conversely, they have done an excellent job in opening up direct pipelines and cutting through the red tape on the demand side. I would recommend Concorde America to any investor as a strong buying opportunity." Mr. Heysek's full report can be found at <http://www.winningstockpicks.net>.
